

# Life Matters <sup>at AWC</sup>

Impossible Odds  
Set the Stage  
for

*Amazing  
Miracles*

ANNUAL REPORT 2023

## We all grapple at some point with the pressure associated with managing situations that are not in our favor. Difficult circumstances often direct our paths, but adversity can also set the stage for amazing miracles.

As we close out 2023 and look to 2024, that seems to be the motto for AWC.

As many of you know, the Pennsylvania Department of Human Services announced this past August that it was cancelling its contract with Real Alternatives, a decision that blatantly put politics ahead of those who receive life-affirming care from centers like ours who were funded in part through Real Alternatives. The lost revenue to AWC for 2024 will be about \$170,000.

Then in November, Pennsylvania Attorney General Michelle Henry launched a website specifically targeting pregnancy resource centers and soliciting anonymous complaints against them. Unfortunately, pregnancy centers in PA have no way to defend themselves against these unsubstantiated attacks.

To address issues like these, AWC joined with other pregnancy centers across the state to create the PPWC (see page 3) to have a united voice and address legislative challenges.

With these ongoing political fights, in addition to the constant propaganda emerging from the abortion industry and the attempts to reduce medical oversight of abortion, it undoubtedly feels like we are fighting an uphill battle, particularly when it comes to reaching women who could benefit from AWC's services. Pregnancy centers are facing a landscape in which over half of all abortions are now performed via the abortion pill (54% in America), many via telehealth or with mail order abortion pills where a woman never even needs to leave her home to visit a medical office.

Yet all of this undoubtedly sets the stage for God to work amazing miracles through AWC.

The resources, information, and compassionate outreach that A Woman's Concern provides is invaluable to individuals navigating these challenging circumstances. Your commitment to promoting alternatives to abortion and creating a society that values and protects every human life is a bridge of hope for those we serve.

In the past year, your generosity has allowed AWC to offer extended medical evening hours, to launch our Abortion Pill

Reversal video blog, to grow our Courageous Dads program, and to add 24/7 access to nurses via live chat, all while serving over 670 unique clients.

Building on a successful pilot program in partnership with HopeSync, we recently added an option on our website and on our Google ad landing pages to live chat with a certified nurse. Now, women searching for information on pregnancy options in today's chaotic and confusing environment can chat with a live nurse who can answer their questions and connect them to AWC's services 24 hours a day, 7 days a week, from the privacy of their own homes.

None of this would be possible without you.

As we continue to unite in our commitment to the sanctity of life, let us use this year to celebrate the hard work of those families whom AWC has the privilege to serve as they overcome seemingly impossible odds. Their journeys are a powerful reminder that every single life can set the stage for God to work amazing miracles.

*Jill B. Hartman*  
Jill B. Hartman  
Executive Director

# What is the PPWC?

Last year, Pregnancy Centers in PA joined together to have a united voice by forming the Pennsylvania Pregnancy Wellness Collaborative:

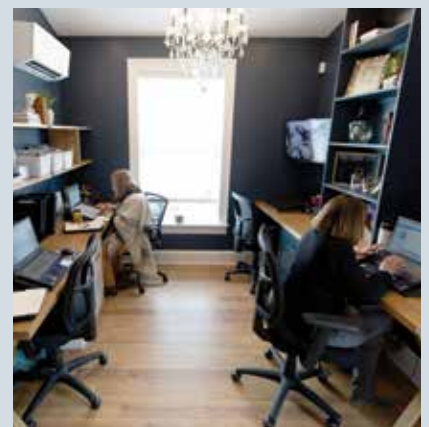

- ▶ This new 501(c)(6) represents local pregnancy resource centers and pregnancy medical centers facing important and sometimes threatening shifts in our culture and government.
- ▶ The purpose is to unify in one voice to advocate for policies that protect our organizations and the families we serve.
- ▶ Together, the PPWC promotes and affirms the sanctity of human life.

## Local Community Grantors Make Addition Possible

The combination of an incredible Facility Committee of Franc Genoese and Pete Sydorko and three generous community benefactors allowed us to transform our front porch into three highly functioning new workspaces.

Thank you, The Clark Associates Charitable Foundation, S. Dale High Foundation, and Community Aid for your leadership support of this project.

# Against the Odds

“Miranda” suspected she was pregnant. The awareness that her life and path could soon change was overwhelming. Not knowing what to do, she picked up her phone and Googled for help. An ad popped up that looked promising, so she filled in a digital form and soon connected with a nurse scheduler at A Woman’s Concern.

Miranda was treated with kindness and so she decided to schedule a pregnancy confirmation appointment at AWC knowing that she would receive a professional grade pregnancy test, as well as a limited ultrasound to confirm viability, gestational age, and location of her pregnancy.

Miranda’s ultrasound revealed that the pregnancy was viable. While at our center, she and her boyfriend also received information about their options. Undecided about what to do next, they thanked our team and headed on their way.

It is routine for AWC’s Client Services Director, Terri, to follow-up and offer support to all our patients after their appointments at our center. So, Terri called, and Miranda answered. She expressed her gratefulness for all the information she received at her confirmation of pregnancy appointment. However, unfortunately, Miranda then shared that she had already obtained and taken abortion pills. Even so, she was so glad Terri had called because she was still experiencing pregnancy symptoms and did not know what to do. Terri recommended

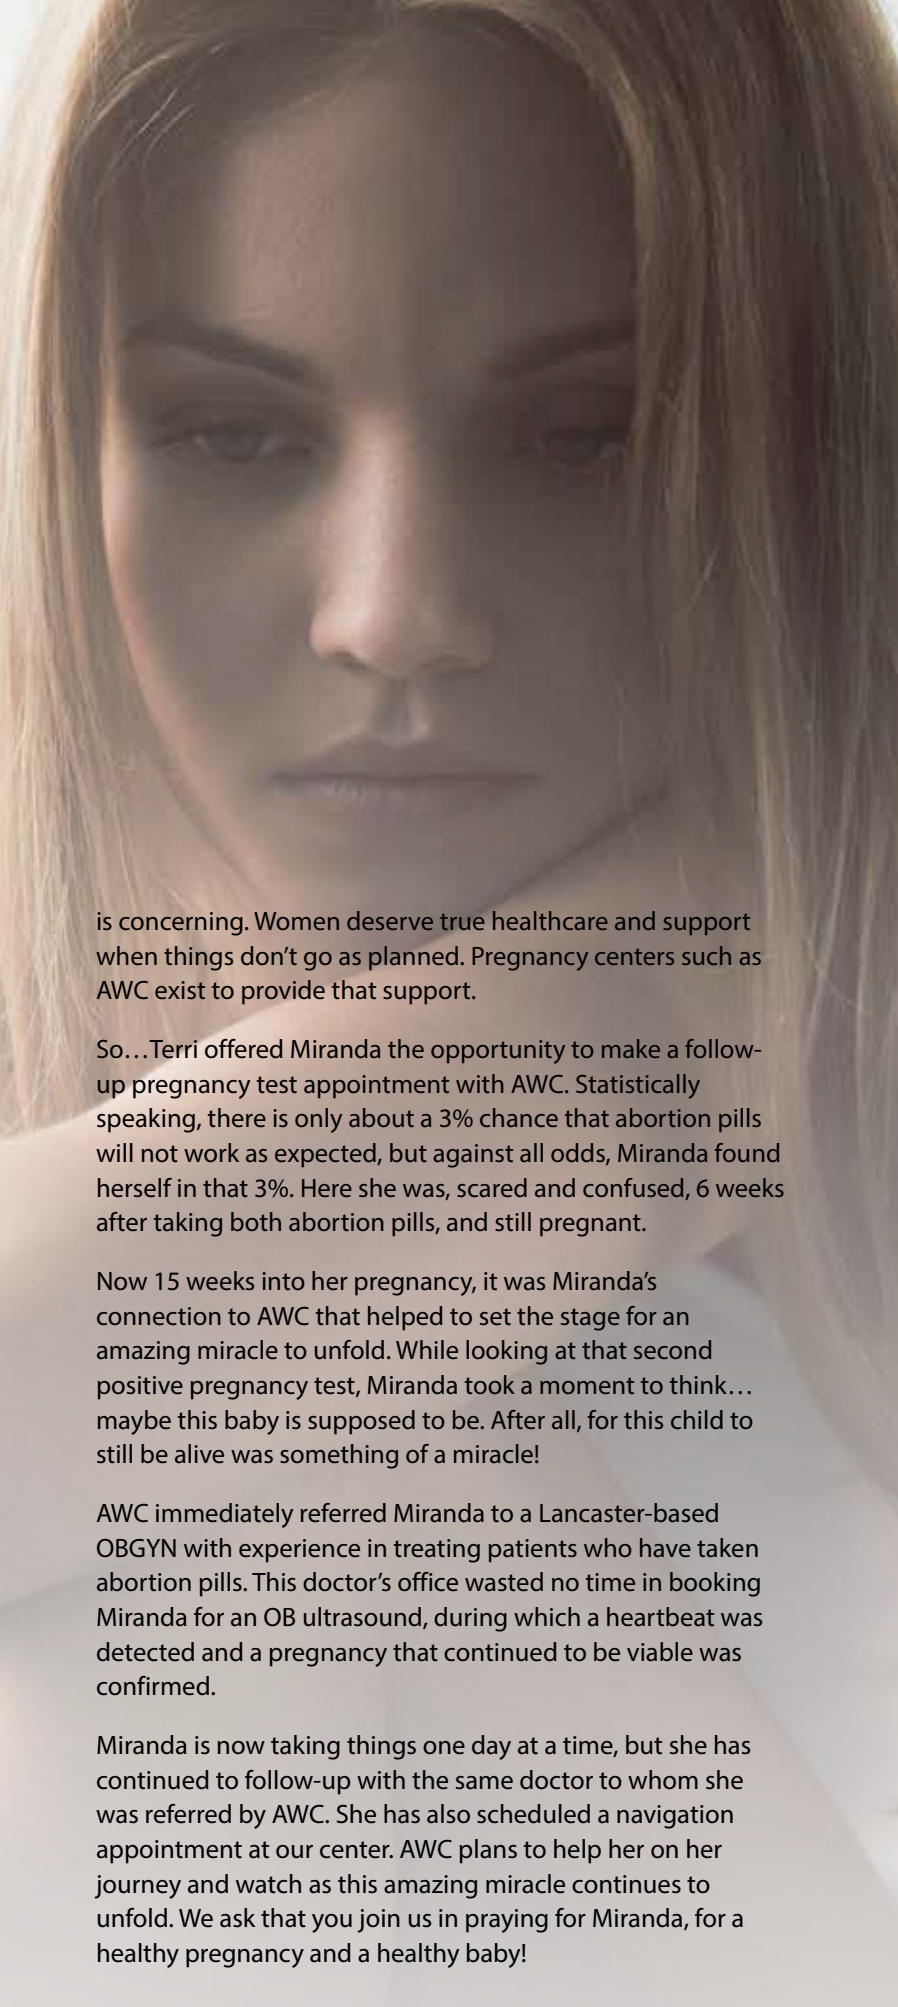

she reach out to the clinic that gave her the pills and request a follow up appointment. Miranda said she had already done that and was just told to take another pregnancy test 5 weeks after having taken the pills.

**There was only a 3% chance that the abortion pills she took had not worked as intended.**

Unfortunately, in Pennsylvania a woman can chemically abort her pregnancy at home with minimal, if any, medical oversight. Originally, when the abortion pill first became available in 2000, a woman needed to visit her doctor to confirm the pregnancy, confirm the location of pregnancy, and confirm the gestational age with a pregnancy test and an ultrasound. However, often all that is needed now is a quick telehealth call with a doctor before a woman can access the medication necessary

to self-manage her abortion at home. And as Miranda discovered, follow-up care may not be readily available.

Today, in our post-Roe nation, legislators have the responsibility of ensuring quality women’s health care. The lack of safety regulations regarding chemical abortions, which now make up over 50% of all abortions in America,

## IN THE NEWS

# Stay Informed

is concerning. Women deserve true healthcare and support when things don't go as planned. Pregnancy centers such as AWC exist to provide that support.

So...Terri offered Miranda the opportunity to make a follow-up pregnancy test appointment with AWC. Statistically speaking, there is only about a 3% chance that abortion pills will not work as expected, but against all odds, Miranda found herself in that 3%. Here she was, scared and confused, 6 weeks after taking both abortion pills, and still pregnant.

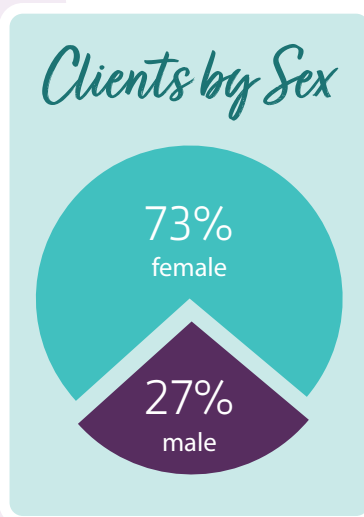

Now 15 weeks into her pregnancy, it was Miranda's connection to AWC that helped to set the stage for an amazing miracle to unfold. While looking at that second positive pregnancy test, Miranda took a moment to think... maybe this baby is supposed to be. After all, for this child to still be alive was something of a miracle!

AWC immediately referred Miranda to a Lancaster-based OBGYN with experience in treating patients who have taken abortion pills. This doctor's office wasted no time in booking Miranda for an OB ultrasound, during which a heartbeat was detected and a pregnancy that continued to be viable was confirmed.

Miranda is now taking things one day at a time, but she has continued to follow-up with the same doctor to whom she was referred by AWC. She has also scheduled a navigation appointment at our center. AWC plans to help her on her journey and watch as this amazing miracle continues to unfold. We ask that you join us in praying for Miranda, for a healthy pregnancy and a healthy baby!

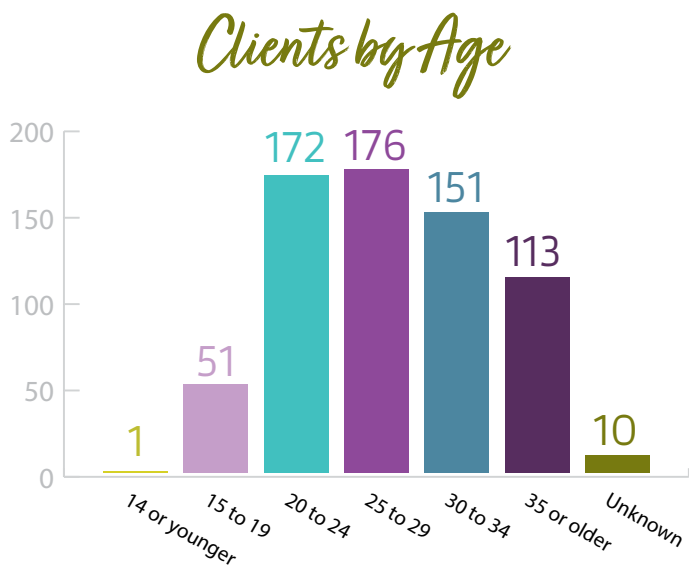

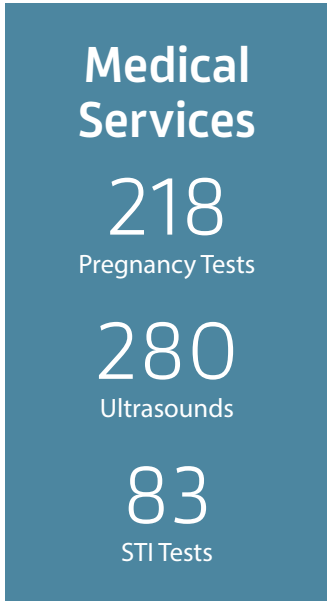

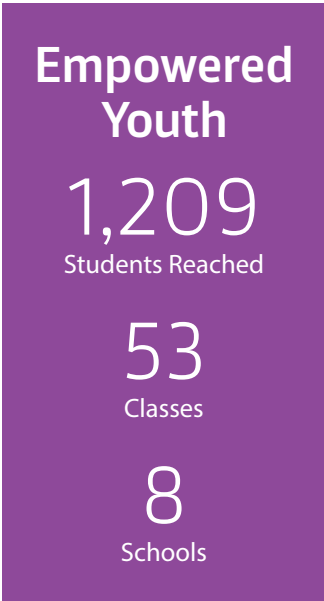

- ▶ The **US Supreme Court** has taken a case regarding the availability of mifepristone, a key component in the abortion pill regimen.
- ▶ The **PA Supreme Court** continues the abortion industry push for taxpayer funding for abortion in Allegheny Reproductive Health Center v. PA Department Health Services. This case puts all the current PA Abortion Control Act protections at risk.
- ▶ Some **PA State Legislators** are striving very hard to make it difficult for pregnancy centers to exist by removing funding for alternatives to abortion, encouraging complaints against pregnancy centers and writing laws that reduce important safeguards involving women's health and abortion. Our allies need help – please thank our local legislators that are standing up for pregnancy centers.
- ▶ **Elections have consequences.** Lawmakers are currently striving to enshrine abortion rights in locations all across the country.
